### Covered Treatments by the DENTYRED Dental Service

All treatments related to dentistry and stomatology, as listed in this maximum price schedule, are covered, provided they can be performed by the dentists included in the DENTYRED Medical Network, whose specialties or exclusivities are specified in each case. Surgical procedures specific to maxillofacial medicine may only be performed by specialists within the DENTYRED Medical Network when the diagnostic indication deems it necessary. Otherwise, such treatments must be carried out by a maxillofacial surgeon and are therefore excluded from the DENTYRED Dental Health System.

To provide the widest possible coverage, DENTYRED includes maxillofacial surgeons in certain locations who are specialized in offering these services. However, hospital and anesthesia costs are not covered under any circumstances. X-rays must be prescribed by a specialist from the DENTYRED Medical Network. Otherwise, contracted radiology clinics are not obligated to adhere to the maximum price schedule.

Emergency cases will be attended to at dental clinics during their established days and hours, or by calling the Dental Care Department at 918 340 344 or 900 842 029.
